

SPOTLIGHT

Real-world work while making a difference!

Did you know? We have an AWESOME partnership with Habitat for Humanity Sarasota & ReStores! Students from our Electrical, Plumbing, and Construction Technologies programs are helping to build local habitat houses right here in Sarasota. This gives our students an opportunity to experience real-world work while making a difference in the lives of others. Students typically spend 1-2 days each week outside of the classroom on the Habitat Job site. Students range in age from high school on up and we are thrilled to be able to partner with such a positive organization.
