

2015-2016 Gainful Employment Program Disclosures

The following program disclosures are provided pursuant to federal law, pertaining to Title IV eligible educational programs. "Occupation" data reflects the type of occupations the program generally prepares students to enter. (For government data regarding occupations, please navigate to <http://www.onetonline.org>.) To the extent permitted under the standards of the applicable accrediting agency or state agency, the placement rates reported below may reflect students who completed the program and obtained employment in one of the occupations listed in the standard occupational titles below or other occupations that utilize the core skills taught in the program.

"On-Time Completion Rate" reflects the percent of graduates between July 1, 2015, and June 30, 2016, who completed their program within 100 percent of the normal time frame as described in the school catalog or enrollment agreement.

"Costs to Students" reflects the costs of the academic program for students completing the program on time, including tuition and fees, and estimated books and supplies. Costs are for the 2015-2016 school year and do not reflect potential increases.

"Placement Rates" reflects the percent of graduates securing employment as calculated pursuant to the required calculation methodologies and time frames of the applicable state agencies or institutional accrediting agencies. Each agency has different criteria in determining what constitutes a placement, and these placements may or may not be listed in the standard occupations listed below.

"Median Loan Debt" is not applicable because our institution does not offer loans. Unless otherwise noted below, the data included in this disclosure are for the entire educational institution as defined by the Department of Education, which may include a number of individual campus locations and both online and physical delivery modalities.

- [Accounting Operations](#)
- [Administrative Office Specialist](#)
- Advanced Manufacturing and Production Technology-Not available; no Title IV student enrollment in the 2015-2016 school year
- Air Conditioning, Refrigeration, and Heating Technology 1- Not available; no Title IV student enrollment in the 2015-2016 school year
- [Automotive Collision Technology](#)
